Welcome to the Embassy of the Czech Republic, representing a beautiful, historically and architecturally rich country located in the heart of Europe. It's no wonder that the "Bohemia" has been a popular site for filmmaking. This year, we will bring the best of Czech cinematography to Washington, DC, via the Mutual Inspirations Festival 2012-Miloš Forman, which runs September-October 2012 and celebrates Czech director Miloš Forman's 80th birthday and work, along with many achievements of transatlantic film production. For now, Czech out ten stops inside the Embassy grounds for a sneak peek into the movie industry in the Czech Republic.
