Předmět: RE: NIF database: technical comments

I think the problem was only limited to the sending of the email acknowledgement, probably due to the deployment of the new version which happened around 17 H 30.

Dear Mr Hadrousek,

I can confirm you that we received both your communications, the answer to the 226 letter of formal notice for case 2007/2219 and the request for prolongation for case 2007/4447.

Concerning the error message, could you tell me what kind of error message you received? Is just to be sure that what you received is due to a problem that we already fixed on Friday and which, then, should not occur again.

Best regards

Paolo Lavaggi
