Unicorn Systems Introduction

UNICORN Systems

Unicorn System's mission is to bring clients a competitive edge and high added value by delivering ICT solutions, products and services with the agreed quality, scope, time and budget.

Why Unicorn Systems

We have 25 years of **Experienced** vve have 25 years of experience in the field of ICT in different branches.

Annually we produce dozens of information systems with extensive emphasis on quality.

Our expertise covers all important business and technology areas.

Cooperation with strong sectoral partners allows us to use the latest knowledge and technology.

We successfully implement projects throughout Europe and beyond.

Thanks to our systematic approach we offer ICT solutions of high quality with exceptional price/performance ratio.

Unicorn Systems Projects

 Successful projects cover Europe almost entirely, as well as extending beyond its borders.
