Hosting Country

The Participating Countries

(Alphabetical Order)

Switzerland

Taiwan

Yemen

The Opening Ceremony 26/10/2019

First I would like to extend His Majesty's greetings to all our guests and express on behalf of His majesty His high hopes regarding the success of this forum in achieving it's potential goals in the medical tourism sector and I would like to stress on His Majesty's great interest in this important sector. I welcome all our guests from Arab & Foreign countries and thank everyone who has contributed to make this forum possible, I also want to deeply thank Dr. Fawzi Al-Hammouri, Chairman of The Private Hospitals Association for always taking the lead to overcome all the challenges and seize opportunities in this sector. The medical tourism sector is available for all, and we take pride in the unparalleled services provided in Jordan The government, is facilitating for many countries the visas for restricted nationalities, a matter that the PHA has urged the government to address "many times" in the past, which aims to boost medical tourism. We are coordinating with neighboring countries to overcome this challenge and achieve both goals; safety and support this sector to boost the national economy."

H.E. Dr. Omar Al Razzaz Prime Minister of Jordan

"On behalf of myself and The Private Hospitals Association, we deeply Thank His Majesty King Abdullah II for patronizing this forum, which is a clear demonstration of His Majesty's interest in the healthcare sector in general and in medical tourism in particular. This interest was reflected by His Majesty's directives to the successive governments to support this sector and overcome obstacles facing it because of its importance in supporting the national economy.

The forum represents an opportunity for consultations, exchange of experiences and work to strengthen cooperation between countries in providing a humanitarian service to alleviate the pain and suffering of patients and therefore we request the cancelation of visa requirements for the restricted nationalities, especially for patients and their companions."

Dr. Fawzi Al-Hammouri

Strong B2B Platform

Networking & Sharing Experiences

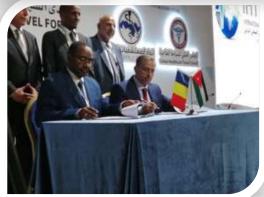

Large number of buyers

26th - 28th of October 2019

I wish to thank you on your hospitality and excellent organization of the IHTF2019. I have met with interesting colleagues and was intrigued with challenges that are facing health tourism in the times coming.

Dr. Ozren Tošić, Australia

The forum was great from all aspects. The arrangements were outstanding and extraordinary.

Dr. Omar Shalabi, Saudi Arabia

It was a great honor for me having the chance to present my work to this audience. All was perfectly organized and it was a very successful event with wide ranged interesting presentations.

Dr. Zuhair Bisharat, Jordan

Globalization of healthcare, just like ageing, is inevitable. With limited resources in healthcare talent & technology, patients need to cross borders in search for the most appropriate care. Finding a common ground with these healthcare leaders from 48 countries at (IHTF) 2019 in Jordan -- the largest forum for this specialized sector in the MENA region..

Ms. Joyce Sacao, Philippines

I am use to be invited to different events all over the world, and this is for sure one of the most well organized and with high potential. Even the guests, all of them very Well known and skilled!

Mr. Stefano Urbani, Italy
